Thank you.

I will review and contact you later this week with any questions. I have a meeting with my Supervisor to discuss setting up an inspection, so will notify you with those dates.

Here is are spread sheets with the bacteria. I am also attaching scans of the sample analytical result tables in the most recent report so you can see the qualifiers on lab results.

Thanks,
Laura

Subject: Central Sands Dairy

Hi Cheryl,

Please let me know what additional information I can provide. The tab labeled "Field Parameters" has all GW quality data except Bacteria. I will put together another table for that and send it this week. The bacteria hasn't been a huge concern because it is showing up in the monitoring well located right in the middle of the site. It would be hard to collect a clean sample there.

Thanks,

Laura Chern
